News from SidE Postgraduate Courses, Summer Schools and WEEE 2022

In the summer 2022, the gradual return to normality has started. However, SIDE decided that, depending on the preferences of the participants, the postgraduate courses and the summer schools could continued to be both in presence and online. This year we had two-weeks of summer schools (details below).

Comparing to previous (pandemic) years, SIDE successfully delivered synchronous courses in presence and online to **259** participants (against 252 in 2021 and 143 in 2020) of which **146** in presence (against 62 in 2021 and 24 in 2020) and **113** online (against 190 in 2021 and 119 in 2020). Despite a small increase in the total number of participants, those in presence increased by more than 100%. Participants were coming from universities and research institutes of different countries all over the world. From the end-course surveys, a general high satisfaction of SIDE mixed lecturing emerged.

Details of the five postgraduate courses of 2022 sorted by number of participants are:

[Panel Data Econometrics: theory and applications](#) (Coordinator Maria Elena Bontempi)

25 - 30 July 2022

Total number of participants **55**, of which 27 in presence (@CEUB centre in Bertinoro) and 28 online

[Introductory Econometrics](#) (Coordinator Giorgio Calzolari)

6 - 11 June 2022

Total number of participants **30**, of which 18 in presence (@CEUB centre in Bertinoro) and 12 online

[Advanced Bayesian Econometrics: Bayesian Multivariate Models and Forecasting in Economics](#) (Coordinator Gaetano Carmeci)

29 August - 2 September 2022

Total number of participants **29**, of which 17 in presence (@Ca' Foscari University, Venice) and 12 online

[Financial Time Series and High Frequency Econometrics](#) (Coordinators Alessandra Amendola and Giuseppe Storti)

4 - 9 July 2022

Total number of participants **29**, of which 11 in presence (@CEUB centre in Bertinoro) and 18 online

[Networks Econometrics](#) (Coordinator Roberto Casarin)

27 June - 1 July 2022

Total number of participants **27**, of which 17 in presence (@Ca' Foscari University, Venice) and 10 online

Finally, other three SIDE classical events occurred: two summer schools and one workshop.

The Summer School delivered in S.A.Di.Ba. (Bank of Italy, Perugia) from 11 to 15 July was:

[Textual analysis and machine learning with applications to economics and finance](#)

Lecturers: *Thomas Renault*, University Paris 1 Panthéon-Sorbonne (France), and *Matthieu Picault*, University of Orléans (France) and Laboratoire d'Économie d'Orléans

Coordinator: Juri Marcucci.

Total number of participants **49**, of which 24 in presence and 25 online

The Summer School delivered in CEUB centre (Bertinoro) from 18 to 23 July was:

[Program Evaluation Methods in Econometrics](#)

Lecturers: *Matias D. Cattaneo*, (Department of Operations Research and Financial Engineering Princeton University, USA), and *Michael Jansson*, (Department of Economics UC-Berkeley, USA & CREATES, DK)

Coordinator: Francesco Ravazzolo.

Total number of participants **25**, of which 21 in presence and 4 online

[10th Side Workshop for PhD students in Econometrics and Empirical Economics](#)

Coordinator: Emanuele Bacchiocchi

On September 1-2, 2022, the Bertinoro Conference Center hosted the **tenth edition** of the Workshop in Econometrics and Empirical Economics (WEEE), organized by the SIDE in collaboration with the Bank of Italy. After ten years, the workshop continues to be a rather unique event in the European panorama: it is expressly dedicated to PhD students approaching the job market that want to present and share their work with mates and senior economists/econometricians. As for the previous editions, the committee selected 15 papers (among a total of around 40 applications received) that have been presented during the two days of the workshop (11 in presence @CEUB centre in Bertinoro and 4 online). Each presentation has been followed by a detailed discussion by a senior discussant, who provides comments and suggestions on how to improve and present the contents to reach suitable standards for publication on international journals. Moreover, the informal spirit of the workshop stimulated all participants to join the discussion, raising questions or proposing suggestions. In ten years, at least 35 papers presented at the WEEE have found collocation in international journals, and some of them in prestigious ones like, among others, Quantitative Economics, Journal of Business and Economic Statistics, European Economic Review, Oxford Bulletin of Economics and Statistics. In line with previous editions, we received applications from students coming from different countries in the world and attending prestigious PhD.

Virtual seminars

Virtual Time Series Seminar series (VTSS)

The Virtual Time Series Seminar series (VTSS) starts on September 15 and takes place regularly on Thursday at 16:00 UK time. All info and registration are available at

The speakers for Autumn are:

- 15 September, Peter R Hansen
- 22 September, Anna Mikusheva
- 29 September Giuseppe Cavaliere
- 6 October, Tatevik Sekhposyan
- 13 October, Silvia Goncalves
- 20 October, Suhasini Subba Rao
- 27 October, Toru Kitagawa
- 3 November, Anna Bykhovskaya
- 10 November, Christian Wolf
- 17 November, Mikkel Plagborg-Moller
- 24 November, Anna Simoni
- 1 December, Vladas Pipiras

To make the seminars more engaging, each seminar will host a distinguished scholar in the field who helps stimulate the debate after the presentation (the idea is borrowed from the [Economic Theory series](#), where it works really well).

VTSS organizers: Majid Al-Sadoon, Adriana Cornea-Madeira, Dimitris Korobilis, Alessandra Luati, Geert Mesters, Michele Piffer, Abderrahim Taamouti.

Workshops & Conferences

It is worth remembering that in 2022 the CEUB centre in Bertinoro this year hosted from 16 to 19 of June:

[The 27th International Panel Data Conference \(IPDC\)](#)

It was the first time that the annual IPDC was in Italy.

The number of papers submitted were 125 and 82 were selected for presentation, of which 39 from young researchers (less than 35 years old). In addition, five Keynote Speeches were delivered by Xavier D’Haultfoeuille, Chihwa Kao, Jacques Mairesse, Thanasis Stengos, and Allan Timmermann.

The winner of the Best Young Researcher Paper Prize (sponsored by the Department of Economics, University of Bologna) was Ms Bossoma Doriane N’Doua (Université de Bordeaux, France), who presented the (sole authored) paper entitled “The Impact of Technical Barriers to Trade and Sanitary and Phytosanitary Measures on Trade in the Forest-Wood-Paper Sector”.
