

7th CIdE Workshop for PhD students in Econometrics and Empirical Economics (WEEE)
29-30 August 2019, Bertinoro (FC) - Italy

K. Shilov (<i>Russian Pres. Academy - Moscow</i>)	An analysis of Russian banks defaults discussant – M. Caporin (<i>Univ. of Padua</i>)
S.M. Zema (<i>Sant'Anna School – Pisa</i>)	A network-centrality factor model approach to stock returns: Sectoral interdependence and volatility diffusion discussant – M. Caporin (<i>Univ. of Padua</i>)
M. Manfrè (<i>University of Verona</i>)	Saving behavior: Financial socialization and self-control discussant – D. Cavapozzi (<i>University of Venice</i>)
A. Tulli (<i>University of Warwick</i>)	Sweeping the Dirt under the Rug: Measuring Spillovers from an Anti-Corruption Measure discussant – D. Cavapozzi (<i>University of Venice</i>)
G. Burro (<i>University of Warwick</i>)	Sky's the limit: an empirical investigation of maximum price and its effect on regret and trading decisions discussant – A. Bucciol (<i>University of Verona</i>)
J. Spornberger (<i>University of Innsbruck</i>)	European integration: Do country borders within the EU still matter for trade in manufactured goods? discussant – A. Bucciol (<i>University of Verona</i>)
C. Casoli (<i>Univ. Politecnica delle Marche</i>)	The common movement of commodity prices: non-stationary dynamic factor models discussant – A. Bastianin (<i>University of Milan-Bicocca</i>)
J.O. Ferreira (<i>Complutense Univ. of Madrid</i>)	Disentangling the role of the exchange rate in oil-related scenarios for the European stock market discussant – A. Bastianin (<i>University of Milan-Bicocca</i>)
F. Nutarelli (<i>IMT - Lucca</i>)	Impact of Drug Recalls on Pharmaceuticals, Firms and Markets: an empirical analysis discussant – C. Monfardini (<i>University of Bologna</i>)
F. Valentini (<i>Univ. Politecnica delle Marche</i>)	A conditional approach to testing for endogenous sample and self-selection in fixed-effects logit panel data models discussant – C. Monfardini (<i>University of Bologna</i>)
A.F. Gravina (<i>University of Messina</i>)	Technology, nonlinearities and the determinants of inequality: New panel evidence discussant – M. Pisani (<i>Bank of Italy</i>)
L. Simon (<i>EUI</i>)	Heterogeneous Effects of Fiscal Policy Shocks: New Evidence discussant – M. Pisani (<i>Bank of Italy</i>)
S. Tonini (<i>Sant'Anna School – Pisa</i>)	Bayesian The evaluation of statistical learning algorithms in time series forecasting and features selection under sparse DGP - A simulation study discussant – R. Casarin (<i>University of Venice</i>)
F. Tullio (<i>University of Rome "Tor Vergata"</i>)	Intergenerational mobility measurement with latent transition matrices discussant – R. Casarin (<i>University of Venice</i>)

IMPORTANT: The inclusion of the paper in the final program is however subject to the conclusion of the payment process **by Monday 1st July 2019**. For organizational reasons, the workshop is reserved to SIdE-IEA members (yearly membership fee € 60). Once completed the registration to the SIdE-IEA, you can start with the enrollment and payment for participating to the workshop. The € 200 participation fee covers all expenditures for accommodation (single or double rooms) and meals (breakfast and lunch, but no dinner) during the two days of the workshop. All information on how to become a SIdE-IEA member and how to pay the workshop fee can be found at <http://www.side-ica.it/payments>.

We look forward to seeing you in Bertinoro!
